

## KETTLE MORAINE LAND TRUST

### **Kettle Moraine Land Trust Mother's Day Bird Walk**

Date: Sunday, May 12, 2019

Time: 8:30 – 11:00 a.m.

Location: Beulah Bog State Natural Area

Led by Jim Marrari, experienced birder; Derek Sallmann, Friends of the Mukwonago River; Greg Rajskey, Executive Director, Kettle Moraine Land Trust.

Join us for KMLT's annual Mother's Day Bird Walk. New this year – we will have a short introduction to birding: equipment, guides and photos, and lists of birds we might expect to see. Perfect for beginning birders as well as those who are more experienced and want an early morning nature walk.

Beulah Bog SNA features upland woodlands and prairies with a trail down to an undisturbed bog featuring distinctive vegetation more typically found further north. The variety of habitats may harbor several species of birds for us to view and identify.

Bring boots for the walk in the bog (the boardwalk may be slightly underwater) and binoculars and camera if you have them.

If you can, make reservations by emailing [info@kmlandtrust.org](mailto:info@kmlandtrust.org) or calling KMLT at 262-949-7211. Parking space is limited so carpool if you can.

Beulah Bog State Natural Area is located north of East Troy. The Bog parking lot is located 0.8 mile south of County Highway J on Stringers Bridge Road.
